My art, in hot forged Metal, is inspired by the Flow and Forms of Nature. I specialize in site-specific sculptural and architectural metalwork commissions utilizing primarily forged metals such as steel, bronze, and occasionally granite and/or live plants. Works include: wall reliefs, metal sculpture, artistic custom gates, garden art, public art, custom "wrought iron", sculptural, architectural, and special focus pieces such as wall art, fountains, coffee tables, wine cellar gates, lighting, weathervanes, screens, railings etc. All pieces are custom designed and built to last.

“NH Aquatic Plants Fountain”

Materials: Forged, fabricated stainless steel and bronze

Price: \$6,800
